

## Green Thought

Scientific journal *Green Thought* covers different topics from the fields of social ecology, political ecology, sociology, environmental economy and natural resources. The journal studies contemporary environmental problems, ecological theories, “green” political, social and economic thought, ecological culture and ecological education. Journal is particularly interested in Special orientation of the journal is the study of the theoretical studies of environmental policy and its implementation in practice, both in Serbia and other national environmental policies, and in particular international environmental policy. It is published by Center for Environmental Policy and Sustainable Development (CEPOR) of the Faculty of Political Science and Faculty of Political Science of the University of Belgrade.

Scientific journal Green Thought has the following sections:

- ✚ Studies (extended original research papers in which previously unpublished results of researches are presented)
- ✚ Articles (original small-scale scientific works, debates on a particular scientific topic, discussions, polemics, as well as contributions beneficial for the improvement of professional practice)
- ✚ Reviews (scientific criticism and book reviews)
- ✚ Chronicles (texts and information about domestic and international scientific conferences, seminars, promotions and other social and political events related to ecology and environmental issues)
- ✚ Announcements (basic information about the ongoing scientific-research projects, domestic and international conferences and thematic issues of the journal)

Scientific journal Green Thought may have, in addition to the above, other sections that fit into the basic concept of the journal, which are decided by the Editorial Board.

Papers that the Editorial Board takes into account for publication will be peer reviewed by two reviewers. Editorial Board ensures and guarantees the confidentiality of the review process. Editorial board and the editor determine the final content of each issue of the magazine.

Language of the publications in this scientific journal is Serbian. Besides Serbian, papers may be published in different languages that are acceptable in international scientific communication (English, Russian, Croatian, Slovenian, French, German, Spanish, etc.).

Regular issues are published twice a year (semi-annually) in a paper form. Journal Green Thought may be published as a part-time, supplemental and special issue, which is not considered an integral part of the volume of the journal.

Journal Green Thought is also published in electronic form and is available on the website of the Center for Environmental Policy and Sustainable Development (CEPOR) <http://cepor.fpn.bg.ac>.
